

Client Event Information

Thank you for choosing Love Pamper Company for the pamper booking upcoming.

Please make sure that you have read, understood, and printed sufficient copies of the attached documents.

- [Love Pamper Company Health Treatment Consultation form](#) – See attached version for printing, or the online version can be completed at [Client Consultation form | Love Pamper Company](#) please make the therapist aware if you have completed the online version and if there were any health concerns that you ticked. Hand all consultation forms to the therapists upon arrival.
- [Love Pamper Company schedule](#) - Please print a copy to keep organised on the day and keep everyone prepared for their scheduled times, if they are late to treatments this will affect their treatment times and therapists cannot stay at the venue longer than expected.

The therapists will arrive approximately 15-30 minutes early to the venue, so they are ready and set up for the treatment start time. Please make sure that the contact number on the schedule is available for the day and you are all at the venue ready for them to arrive. We ask guests to leave a car parking space for the therapists to park and unload their car on the day.

Nail treatments – Please remove all polish prior, if there is remaining gel polish or dark colours this will affect the treatment time and the therapist may not be able to offer the full service. Therapists do not take any gel removal lotions or tools with them, so a polish can only be applied over the top of a gel polish.

For those guests having manicures and pedicures you will need to provide a table and two chairs. The therapist will also require access to hot and cold water and a plug socket too.

On arrival please contact the Therapists (mobile numbers on forms) to make them aware of any parking restrictions, gate codes etc. If this is not followed and there are any delays on the day due to this, it will affect the total duration of the pamper session time, due to therapists being allocated to a start and finish time.
